

Task Solutions Experts, LLC

WHERE HOSPITALITY MATTERS
EXPIERENCE. SERVICE. RESUTS

My name is Tehmina Akbar, and I am the owner of Task Solutions Experts. My task force company is based out of Southern California, with 100's of professionals recruited in hospitality from across the US. We are experienced in helping hotels in need of sales and operational solutions with our task force. I have established good rapport with all previous clients and would be happy to provide references at your request.

I have 25 years of hospitality experience and have a desire to help individuals and hotels in the industry. My business has been running for three years, solely on word of mouth. My personal touch, knowledge of deployment based on location and segments, and ability to connect the dots has made for a successful business so far. I am looking to expand and have a greater impact.

My task force company is small in comparison to some of the big players in the industry, however, my task forcers are hand-picked and personally interviewed. I complete multiple reference checks before deploying my staff. I am licensed and insured for up to \$5 million dollars in worker's compensation and liability. I imagine you would agree this is a differentiating factor. Very few task force companies are insured, which I think sets us apart from the rest. My goal is to provide people who are optimal for the sales and operational solutions you need, with assurance that liability is not a factor.

Please don't hesitate to call, text, or email with any questions or inquiries. You won't have to go through prompts or speak with receptionists

-I'm here for you
